

NAVEEN YARRAMALLUGALLA

UI/UX Designer · Product Designer · AI-Assisted Design

Hyderabad, India • [+91 70362 82178](tel:+917036282178) • naveenyarramallugalla@gmail.com • [Linkedin-Profile](#) • [Portfolio.Link](#)

PROFESSIONAL SUMMARY

UI/UX Designer with 4+ years of experience designing user-centered web and mobile applications for enterprise SaaS, recruitment (HR tech), healthcare, and service businesses. Skilled in user research, information architecture, user flows, wireframing, interactive prototyping, and high-fidelity UI design in Figma. Builds scalable design systems and reusable component libraries, applies usability and accessibility best practices, and collaborates with product managers and developers in Agile teams to deliver responsive, developer-ready designs.

CORE SKILLS

UX Design: User Research, Stakeholder Interviews, User Personas, User Journey Mapping, Information Architecture (IA), User Flows, Task Flows, Wireframing, Usability Testing, Heuristic Evaluation, Design Thinking

UI Design: User Interface (UI) Design, Visual Design, Interaction Design, High-Fidelity Mockups, Responsive Web Design, Mobile App Design (iOS & Android), Dashboard Design, Typography, Grid & Layout Systems, Branding

Systems & Delivery: Design Systems, Component Libraries, Style Guides, Interactive Prototyping, Accessibility (WCAG 2.1), Developer Handoff, Cross-Functional Collaboration, Agile/Scrum

PROFESSIONAL EXPERIENCE

UI/UX Designer May 2022 – Present

NFC Solutions India Pvt. Ltd. | Hyderabad, India

End-to-end ownership of UX and UI for enterprise, healthcare, and service-industry products — from requirements and research through prototyping, design systems, and developer handoff.

TASK — Ticketing & Project Management Platform [Prototype link](#)

B2B SaaS • Productivity • Web Dashboards

- Designed admin and user dashboards for ticket tracking, status overviews, activity timelines, and team workload.
- Created end-to-end flows for ticket creation, filtering, assignment, Kanban boards, milestones, and time tracking.
- Built the product design system — color, typography, spacing, and elevation tokens with reusable components.

KidPool — School Carpooling Mobile App [Prototype link](#)

Mobile App • Community & Safety • iOS & Android

- Designed role-based journeys for three user types — parents, ride partners, and school staff — across 70+ screens.
- Created flows for ride requests, parental approval, ID and background verification, live tracking, and QR-based school check-in.
- Built a token-based design system (variables, components, variants) and an interactive prototype with micro-interactions.

CalmScient — Mental Health & Wellness Application [Prototype link](#)

Aug 2024 – Dec 2025

Healthcare • Mobile App & Admin Panel

- Designed a mobile app and web admin panel for people managing anxiety and emotional well-being, prioritizing comfort, clarity, and accessibility.
- Designed end-to-end user flows for mood tracking and symptom logging, based on user research and stakeholder input.
- Produced wireframes and high-fidelity UI with a calm, readable visual language; supported developers with HTML/CSS.

PROFESSIONAL EXPERIENCE (CONTINUED)

INTA — International Trademark Association Website [Prototype link](#)

Association / Legal & IP • Responsive Website • AI Assistant

- Designed the website for a global network of brand owners and IP professionals, serving both members and newcomers.
- Designed Home, About Us, Events, News, and Resources pages, plus “Ask INTA”, an AI chat assistant.
- Structured information architecture for events (Annual Meeting, TMAP, IP workshops) and a large resource library — practice guides, webcasts, CLE/CPD, career center, and member directory.

IntelliStaff — Job Board & Applicant Tracking Platform [Prototype link](#)

May 2022 – Present

Recruitment / HR Tech • Enterprise SaaS • Web & Mobile

- Designed end-to-end UX for a job board and hiring platform serving two user groups — candidates and recruiters.
- Defined information architecture for job listings, candidate profiles, and application-tracking dashboards.
- Created user flows, wireframes, and interactive prototypes for job search, application, and recruiter shortlisting.
- Partnered with stakeholders and developers in Agile sprints to validate feasibility and support implementation.

TOOLS & TECHNOLOGIES

Design & Prototyping: Figma (Auto Layout, Components, Variables, Prototyping), Figma Make, Adobe XD, UX Pilot, Relume, Google Stitch, Claude Design

Visual Design: Adobe Photoshop, Canva, Illustration, Iconography

Front-End Awareness: HTML5, CSS3, Responsive Layouts, Developer Handoff

AI-Assisted Workflow: ChatGPT, Claude, Figma Make, UX Pilot, AI-assisted ideation and rapid prototyping

EDUCATION

Master of Science (M.Sc.) — Computer Science

2019 – 2021

Sri Hari Degree and PG College, Kadapa • CGPA: 7.8

Bachelor of Science (B.Sc.) — Computer Science

2016 – 2019

CSSR & SRRM Degree and PG College, Kadapa • CGPA: 8.1

CERTIFICATIONS

Certified UI/UX Designer (CWD) — Tech Mahindra Smart Academy

2021

DESIGN PROCESS

- **Discover** — Understand the problem, users, and constraints through stakeholder discussions, reviews of existing flows, and user insights.
- **Define** — Organize content and define clear information architecture and user flows to simplify complex, content-heavy enterprise platforms.
- **Design** — Validate ideas early with low- to mid-fidelity wireframes and interactive prototypes, then craft consistent high-fidelity UI aligned with brand guidelines and design systems.
- **Deliver** — Review designs for usability and accessibility, hand off developer-ready specs, and iterate with product and engineering based on feedback and real-world usage.
